EDUCATION

SRM Institute of Science and Technology, Chennai <i>B.Tech in Computer Science and Engineering, Specialization in Big Data Analytics</i>	June 2023 – May 2027 CGPA - 9.79
Valley View School, Jamshedpur <i>AISSCE Senior Secondary, Pure Science with Computer Science</i>	May 2023 Score : 85.2%
Valley View School, Jamshedpur <i>AISSE Secondary, Computer Science</i>	Aug 2021 Score : 87.8%

EXPERIENCE

Backend Developer Intern <i>SAARC MASTS TECH PVT LTD</i>	June 2025 – Sept 2025 Remote
- Built and optimized backend systems for mentor–student networking and progress tracking using Node.js and PostgreSQL, ensuring scalable performance and efficient data management. - Conducted code reviews and maintained high-quality production-ready code following backend development best practices.	
Full Stack Developer Intern <i>International Federation of Inventors' Association - Bharat Chapter</i>	Dec 2024 – Mar 2025 Remote
- Led end-to-end development and deployment of the IFIA Bharat web application, cutting page load time by 50% and improving responsiveness. - Engineered scalable CI/CD pipelines and optimized DNS configurations to enable fast, reliable releases.	

PROJECTS

PrakSat <i>Next.js, TypeScript, FastAPI, PostgreSQL, Redis, Razorpay</i>	Nov 2025 – Dec 2025
- Developed a scalable multi-tenant air quality forecasting SaaS platform with role-based access, subscription billing, and credit-based API monetization - Engineered a secure REST API gateway with dual authentication, rate limiting, and automated API key-based credit consumption. - Designed interactive dashboards with real-time visualizations, time-series analytics, and export capabilities for data-driven insights.	
Zit <i>Rust, Ratatui, Git, AWS Lambda, Amazon Bedrock, GitHub</i>	Mar 2026 – Apr 2026
- Designed a terminal-based AI Git assistant in Rust with an interactive TUI, enabling real-time debugging, workflow automation, and intelligent developer guidance - Implemented advanced Git tooling including interactive staging, visual commit graphs, conflict resolution, and reflog-based recovery within a unified interface. - Integrated GitHub APIs, secret scanning, and a lightweight AI backend with asynchronous processing to deliver a fast, secure, and cross-platform developer experience.	

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, HTML/CSS, Rust
Frameworks: React, Next.js, Node.js, Express, FastAPI
Databases: SQL (PostgreSQL), NoSQL (MongoDB), Redis
Developer Tools: Git, Docker, Kubernetes, Kafka, Prometheus, Grafana, VS Code, npm
Core: Data Structures and Algorithms, Object Oriented Programming, Distributed Systems

ACHIEVEMENTS

AWS AI for Bharat Hackathon Secured 2nd Runner-Up for building an AI-powered Git assistant (Zit)	Apr 2026
Smart India Hackathon 2025 Finalist Ranked Top 5 for ISRO's Air Quality Forecasting problem statement nationwide	Dec 2025
1st Runner-Up, Full Stack Development Hackathon (VIT Chennai) Implemented a full-stack event management platform with payments and inventory system	Sep 2024
